Allowable Subject Matter

1. Claims 1-24 are allowed.
2. The following is an examiner's statement of reasons for allowance. The closest prior art of record failed to teach or suggest, correction device extracts two shading correction coefficients from the shading correction coefficients stored in storage device in accordance with addresses of the corresponding pixel in the two directions, and multiplies the pixel data read out from the corresponding pixel by the two extracted shading correction coefficients in turn to correct the pixel data (claims 1 and 13), and correction device independently corrects pixels which are influenced by a color filter, which does not transmit a specific wavelength, range and is inserted between the lens and the image sensing element, and pixels which are not influenced by the color filter, on the basis of shading correction coefficients stored in storage device (claims 7 and 17). Therefore, in combination with all the other limitations claims 1-24 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
